

case description :

- 2.5m wheel base
- velocity : 180 km/h
- spacing 2.5m

$F = 1080 \text{ N}$

balance = 63-36%

mesh description :

- 10 mm on the body shape
- 41 million of cells

$F = -93 \text{ N}$

balance = 16-84%

Drag study on Le Mans Series prototype
